

FlowStack Case Studies

1. TechVault (SaaS, 500 employees)

Challenge: Manual onboarding process taking 3 weeks per customer, causing churn.

Solution: FlowStack Automate streamlined onboarding with automated provisioning, welcome sequences, and training scheduling.

Results: Onboarding time reduced from 3 weeks to 2 days. Customer churn decreased 34%. Revenue retention improved by \$2.1M annually.

2. MeridianBank (Financial Services, 2,000 employees)

Challenge: Compliance reporting required 40+ hours/week of manual data aggregation.

Solution: FlowStack Integrate connected 12 banking systems for real-time compliance data flow. FlowStack Automate generated reports automatically.

Results: Compliance reporting time reduced by 92%. Zero audit findings in subsequent review. Saved \$800K in annual compliance labor costs.

3. HealthBridge Clinics (Healthcare, 800 employees)

Challenge: Patient intake across 15 locations was paper-based, causing data entry errors and HIPAA compliance risks.

Solution: FlowStack Automate digitized intake with HIPAA-compliant workflows.

FlowStack Integrate synced with Epic EHR in real-time.

Results: Data entry errors reduced 97%. Patient wait times decreased 12 minutes on average. Staff reallocated 2,000 hours/year to patient care.

4. PrecisionMfg (Manufacturing, 3,000 employees)

Challenge: Supply chain disruptions due to manual purchase order processing and vendor communication delays.

Solution: FlowStack Automate created event-driven PO workflows with auto-approval thresholds. FlowStack Integrate connected ERP to vendor portals.

Results: PO processing time reduced from 5 days to 4 hours. Stockout incidents decreased 67%. \$3.2M saved in expedited shipping costs.

5. Apex Consulting (Professional Services, 300 employees)

Challenge: Project staffing and resource allocation was done in spreadsheets, causing utilization to stagnate at 62%.

Solution: FlowStack Automate matched consultant skills to project requirements.

FlowStack Insights provided real-time utilization dashboards.

Results: Utilization increased from 62% to 78%. Revenue per consultant increased 26%. Time-to-staff reduced from 1 week to same-day.

6. RetailNova (E-commerce, 1,200 employees)

Challenge: Order fulfillment errors running at 8% due to disconnected warehouse and shipping systems.

Solution: FlowStack Integrate created real-time sync between Shopify, warehouse WMS, and shipping carriers. FlowStack Automate handled exception routing.

Results: Fulfillment errors reduced to 0.3%. Customer satisfaction score increased from 3.8 to 4.7/5. Returns processing time cut by 75%.
