

FlowStack Ideal Customer Profile (ICP)

Firmographics

- * Company Size: 100-10,000 employees (sweet spot: 200-3,000)
- * Annual Revenue: \$10M-\$2B
- * Industries (Tier 1): SaaS/Technology, Financial Services, Healthcare
- * Industries (Tier 2): Manufacturing, Professional Services, E-commerce/Retail
- * Industries (Tier 3): Education, Non-profit, Government (longer sales cycles)
- * Geography: North America, Western Europe, ANZ

Technographics

- * Uses 5+ business systems (CRM, ERP, HRIS, etc.)
- * Has some technical staff but not a large engineering team
- * Currently using basic automation (Zapier, Power Automate) or none
- * Cloud-first or hybrid infrastructure
- * Active Salesforce, HubSpot, or Microsoft Dynamics users

Pain Point Indicators

- * Manual data entry between systems
- * Compliance/audit preparation taking significant time
- * Customer onboarding taking too long
- * Revenue leakage from process inefficiencies
- * Scaling challenges due to manual processes
- * Recent rapid growth or M&A activity

Buying Signals

- * Job postings for "Operations Manager," "Process Improvement," "RevOps"
- * Recent funding round (Series B+ for growth-stage)
- * New CTO/COO/VP Ops hire
- * Mentions of "digital transformation" in press releases
- * Evaluating or recently adopted new CRM/ERP
- * Compliance deadline approaching

Disqualifiers

- * Under 50 employees (too small for ROI)
- * No technical staff at all
- * Fully custom-built internal tooling (build vs. buy preference)
- * Government/regulated with 2+ year procurement cycles
- * Already using enterprise automation (ServiceNow, UiPath at scale)
